PROFESSIONAL EXPERIENCE

DevOps Engineer | Realnaut (contracted to Roche)

March 2023 – Present

- Architected and delivered a comprehensive suite of Terraform modules to provision infrastructure, cutting coding effort, boosting readability, and accelerating deployments.
- Enhanced developer productivity by optimizing GitLab CI/CD pipelines, leading to a **30% decrease in release cycle times**, and introduced automated deployments and rollouts with Argo CD.
- Reduced monthly AWS spend by **50%** through a redesigned deployment strategy that eliminated unused resources and enforced efficient utilization.
- Strengthened application reliability and availability by deploying advanced metrics and tracing observability stacks with Prometheus, OpenTelemetry, and Grafana.

Platform Engineer | Empathy.co

May 2021 – March 2023

Promoted to Platform Engineer (July 2021 – March 2023):

- Engineered and administered multiple Kubernetes clusters (EKS and GKE), ensuring scalability, resilience, and security.
- Automated AWS infrastructure provisioning with Terraform, Atlantis, and Infracost, streamlining deployments across EKS, EC2, IAM, S3, and Route53.
- Revamped CI/CD workflows with Jenkins, GitHub Actions, Helm, and Argo CD, cutting deployment errors by **25%** and accelerating delivery cycles.
- Increased reliability and developer efficiency by managing key tooling, including Harbor, Prometheus, Grafana, ElasticSearch, and GitHub Runners.

Started as DevOps Intern (May 2021 – July 2021):

- Built expertise in Docker, Kubernetes, Helm, GitHub Actions, and Argo CD while contributing to cloud-native application development.
- Deployed the Backstage platform from scratch, improving developer onboarding speed by **20%** and consolidating documentation into a centralized portal.
- Applied agile methodologies (Scrum, Kanban) and tools (Jira, Confluence) to align deliverables with business goals.

EDUCATION AND CERTIFICATIONS

- **Software Engineering**, University of A Coruña (Sept 2017 - September 2022)
- **Terraform Associate**, Hashicorp (April, 2022)
- **Certified Kubernetes Administrator**, The Linux Foundation (November, 2022)
- **AWS Cloud Practitioner**, Amazon Web Services (January, 2022)
- **FinOps Certified Practitioner**, FinOps Foundation (November, 2022)

SOFTWARE SKILLS

- **Cloud & Infrastructure:** AWS (EKS, EC2, IAM, S3, Route53..), Google Cloud (GKE), Cloudflare, Terraform, Crossplane, Atlantis, Infracost, Docker, Kubernetes, Helm.
- **DevOps & Automation:** GitLab CI, GitHub Actions, Jenkins, Argo CD, Harbor, Artifactory.
- **Monitoring & Developer Experience:** Prometheus, Grafana, OpenTelemetry, ElasticSearch, Backstage, Jira.
